into:

- A digital fantasy?
- A digital delusion?
- A techno-solutionist trap?

CULTURE IS THE SOFTWARE OF THE MIND

Geert Hofstede (1991)

“A.I. tools have emerged threaten the survival of human civilization from an unexpected direction.

A.I. has gained some remarkable abilities to manipulate and generate language, whether with words, sounds or images. Artificial intelligence has thereby hacked the operating system of our civilization”.

(Yuval Noah Harari 2024)

CULTURE IS THE SOFTWARE OF THE MIND

Geert Hofstede (1991)

HAVE YOU ASKED YOURSELF

WHO PROGRAMED THE CULTURAL SOFTWARE?

IS YOUR HARDWARE LOADED WITH THE PROGRAMED CULTURAL
SOFTWARE?

A.I. HAS HACKED THE OPERATING SYSTEM (OS) OF HUMAN

The “digital human” is the only “digitally domesticated animal” that does not need its techno master for SHe to be an obedient digital slave.

SHE doesn't know SHe has a techno master, SHe won't know when SHe no longer has one, SHe HAS BECOME A DIGITAL AUTONMOUS SLAVE. **González Carrasco, C. Yakorev, A.**

(2024).

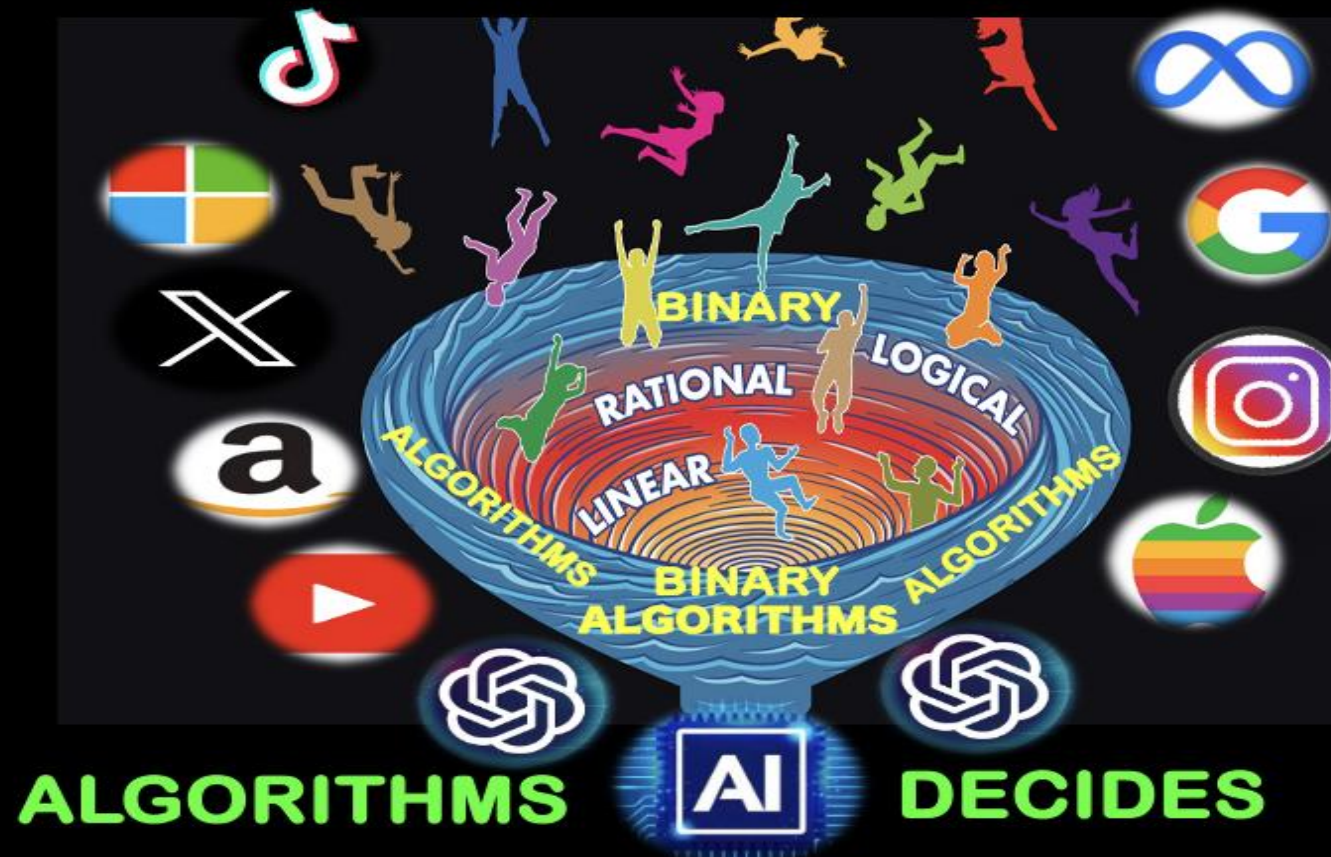

**A.I. & INTERCULTURAL EDUCATION ARE NOT
ABOUT HUMAN CONSCIOUSNESS
OR FOCUS ON HUMAN DIMENSIONS**

INTERCULTURALISM NEW TECHNO FOCUS

Interculturalist are quickly and uncritically accepting, to deploy A.I. to create AI “cultural personas”, create better, more engaging and personalized texts, images, and training materials, for Chat GTP to generate case studies, relevant to intercultural trainers.
